Computer Science graduate who builds and ships production websites and data tools. Freelance web developer and operations planner with **3+ years** in transportation, building Excel tools for a regional planning team.

EXPERIENCE

Freelance Web Developer · Self-Employed October 2026 – Present · Remote

- Designed, built, and deployed a responsive marketing website for Eros Pro Cleaning Services (erosprocleaning.com) in hand-written HTML, CSS, and vanilla JavaScript, hosted on Netlify with version control on GitHub.
- Built a quote request form with client-side validation, spam protection, and asynchronous submission through Netlify Forms, opened in a modal dialog.
- Improved search visibility with schema.org LocalBusiness structured data, Open Graph tags, a sitemap, and robots.txt.
- Built for accessibility: an ARIA-labeled photo carousel with live-region updates, keyboard focus styles, and layouts that hold up on phones.
- Use AI-assisted development (Claude Code) to speed up building, debugging, and revising client sites.

Assistant Operations Planner · Academy Bus May 2025 – Present · Hoboken, NJ

- Built Excel trackers (formulas, conditional formatting, Microsoft Copilot) for partner availability and insurance status, cutting the weekly availability roundup from ~1 hour to ~10 minutes for ~5 planning and operations staff.
- Forecast charter demand across a peak-season board of 3,000+ trips a month and distribute work across 10 Northeast terminals including MA, RI, CT, and NJ.
- Analyze contracts and schedules to resource daily service for 100+ buses and drivers within DOT hours-of-service limits.
- Coordinate terminal distribution and partner subcontracting for large events including the FIFA World Cup, the US Open, and the TCS New York City Marathon, with assignments running into the hundreds per event.
- Planned routes and schedules for a ~20-bus-per-day Port Authority PATH replacement shuttle running 24/7 over four days, approved by the safety manager and the planning director.

Dispatcher · Academy Bus October 2022 – May 2025 · Hoboken, NJ

- Led the 24/7 dispatch desk, backing up the manager, directing a team of 3, and training new hires.
- Resolved 15+ service disruptions a week (breakdowns, accidents, no-shows, diversions) under tight recovery windows.

Shift Lead · Walgreens January 2022 – September 2022 · West New York, NJ

- Opened and closed the store as key holder with no manager present, supervised 4 associates, ran the cash office and daily deposits, and enforced ID checks on age-restricted products.
